

Length in fully unfolded position	5200 mm
Width of standart cleaning equipment	2200 mm
Width of optional cleaning unit	2500 mm
Standard field cleaning width	2000 mm
Optional field cleaning width	2250 mm
Cleaning depth	300 mm
Operating temperature	-20°C / +55°C
Demining ability	2500 m <sup>2</sup> /h
Movement speed	5 km/h
Operating speed	0.5-1.5 km/h
Fuel consumption	15-20 l/h
Longitudinal climbing ability	35°
Transverse climbing ability	30°
Immersion depth	500 mm
Remote control distance	2000 m
Explosion resistance	7 kg (TNT)
Plant cleaning capacity	100 M

11% larger Flail attachment increases effectiveness

Special designed and manufactured engine for more powerful demining technique (more than 20%)

Bigger and efficient cooling system provides uninterrupted operating

Bigger fuel tank provides uninterrupted operating while stay in field

Design of construction makes it easy to service in the field

Body and cleaning part get less impacted and easy to repair

Lower gravity center helps to balance and avoid of flipping from explosions
